## Experience

### Indow Windows — Full Stack Developer

Portland, OR • 2025–2026

- Rebuilt a legacy PHP customer ordering platform as a modern SvelteKit application running on Cloudflare
- Integrated directly with Salesforce to streamline lead management and finance workflows
- Developed and launched marketing website features in collaboration with design and content teams
- Improved maintainability, performance, and operational reliability while retiring legacy systems

### Western Pacific Building Materials — Lead Developer

Vancouver, WA • 2022–2024

- Architected and developed a company-wide admin platform integrating ERP systems, APIs, and internal business tools
- Led modernization of a legacy LAMP stack into a more secure and maintainable platform
- Implemented LDAP authentication, 2FA, and separated development/production environments
- Built automated dispatch and delivery systems with SMS notifications and live operational dashboards
- Developed custom integrations for payment processing, invoice ingestion, print/email queuing, and communication workflows
- Mentored junior developers while leading parallel business-critical projects

### Freelance Developer

2020–2022

- Developed custom eCommerce, CMS, and business platforms for independent clients
- Built inventory management, payment processing, reseller search, and shipping integration systems
- Focused on modern web architecture, full-stack workflows, and long-term maintainability

### Baunfire Agency — Lead Developer

San Jose, CA • 2009–2020

- Led development across dozens of client projects over a decade
- Managed collaboration between designers, developers, and remote teams
- Built custom CMS and internal project management systems used across the agency
- Developed scalable client platforms integrating APIs, SSO systems, and SaaS products

## Education

Bachelor of Arts in Multimedia & Web Design  
The Art Institute of Phoenix
